

## DECLARATION OF CONFORMITY

Subject : Environmental Information of Albond A2 Composite Panels

" To whom it may concern;

Albond A2 Aluminium Composite Panels are produced with materials can be recycled.

Panel scraps can be recycled after separation of aluminium and core materials.

All coatings applied to Albond painted panels are applied in our factory using a coating line with an in line regenerative thermal oxidizer, which eliminates the release of VOC content of the coating.

Therefore Albond A2 Aluminum Composite Panels do not affect to environment and nature.
